FILE PREPARATION GUIDELINES
• We recommend building art in this template
• If building art in this template, the color space of this template should match
  the color space of your art (if art is RGB, make sure template is RGB, etc.)
• All art elements (raster/vector) should use the same color space
• Recommended color spaces are GRACoL 2013 (CMYK) and sRGB
• Design art to the BLEED size listed (which is also the size of this artboard)
• Resolution of raster art/images should be no less than 100 ppi AT FULL SIZE
• All text elements should be converted to outlines
• All raster images should be embedded
• Colors should be applied as process colors and not spot colors
• Turn off the TEMPLATE layer prior to saving your print file for upload
